The requirements for receiving and maintaining a valid permit to grow and harvest hay within the city limits are:

- All hay, remaining weeds, grass and uncultivated plants must not exceed twenty-four (24) inches in height. The City employee shall give the notice of violation by posting the violation notice on a placard attached to a stake driven into the ground on the property when the hay exceeds twenty-four (24) inches in height. Such notice shall require the abatement of such violation within ten (10) days of such notice. It shall be the duty of the property owner to remove or cause to be cut all hay, weeds, grass or uncultivated plants as often as may be necessary to comply with this section. Failure to cut and bale said vegetation shall be grounds for the permit to be revoked. If the owner of the property does not comply with this section and fails to remedy the violation the city may mow the property or pay for the mowing to be done and charge the expenses to the owner of the property.
- The use of property for harvesting hay shall not excuse the requirement that a width of at least twenty five (25) feet between property lines of adjacent landowners (not to include city streets and right of ways) and at least one hundred (100) feet from any structure shall be kept mowed at or below the required twelve (12) inch height at all times. If the owner of the property does not comply with this section and fails to remedy the violation the city may mow the property or pay for the mowing to be done and charge the expenses to the owner of the property.
- The open storing of hay within the city limits is prohibited, and the harvested hay shall be removed from the city limits or stored within a building within thirty (30) days after the hay is harvested. The City employee shall give the notice of violation by posting the violation notice on a placard attached to a stake driven into the ground on the property when the hay has not been removed from the property within thirty (30) days. Such notice shall require the abatement of such violation within ten (10) days of such notice.
- No real estate used to grow and harvest hay within the city limits shall be considered as being used for agricultural purposes unless a valid permit is in existence.
- The property must be five (5) acres or larger and zoned Farm Residential. The city secretary or city official will determine the size and feasibility of the parcel for permitting.
- Permits shall be issued upon the payment of a fee per contiguous lot and each permit shall be valid for one year. The fee set by the city council shall be paid as required at the time of filing application. Said fees may be adjusted annually. Permits may be renewed annually upon the payment of the annual fee. Only property owners may apply for the permit.
- This permit shall not be applicable to the lots and parcels of land in Residential zones. Residential zones must be kept mowed at or below the required twelve (12) inch height at all times.

I have carefully examined and read the completed application and know the same is true and correct, and hereby agree that if a permit is issued, all provisions of City Ordinance 64 and state laws will be complied with, whether herein specified or not. Failure to comply will be grounds for the permit to be revoked.

I, the undersigned, do hereby certify that I am the authorized owner of the property above described.

I, the applicant for this permit, warrant the truthfulness of all of the information provided in this application and understand that if any of the information provided is incorrect, the permit may be revoked by the city.
